**Technoplast announces strategic alliance for Global manufacturing**

Tilburg, The Netherlands, April 17, 2006 – Technoplast announced that they have succeeded to sign a comprehensive strategic alliance and project development/manufacturing agreement. Technoplast fulfilled, with this alliance, one of her major strategic goals for global manufacturing.

Under the terms of the agreement, the two partners will share with each other their respective technologies and manufacturing models, for the purpose of jointly developing, manufacture and assemble plastic devices and components on a global base. This deal triggers immediate global manufacturing utilities.

With manufacturing and assembly capabilities in The Netherlands, Czech Republic, Ukraine and People's Republic of China we offer our customers reliable and efficient production on a global base under responsibility and coordination by our Project Teams in the Netherlands.

For more information contact our Sales Department.
